PRE-ACCEPTANCE INSPECTION FORM

BUILDING HELD IN UNDIVIDED CO-OWNERSHIP OR BUILDING HELD IN DIVIDED CO-OWNERSHIP • PRIVATE PORTION

IMPORTANT

UNDER THE REGULATION, IT IS MANDATORY TO COMPLETE
THIS FORM, EVEN IF A BUILDING PROFESSIONAL ACCOMPANIES
THE BENEFICIARY OR BENEFICIARIES.

For all types of buildings covered by the guarantee, a pre-acceptance inspection is required by the Regulation respecting the guarantee plan for new residential buildings.

The pre-acceptance inspection must be conducted jointly by the beneficiary or beneficiaries of the guarantee and the contractor. If the beneficiary or beneficiaries do not have a good knowledge of construction, they may be accompanied by a person of their choice during the pre-acceptance inspection.

The pre-acceptance inspection is performed using this checklist, supplied by the manager, the content of which has been approved by the Régie du bâtiment du Québec.

Using this checklist, the beneficiary or beneficiaries and the contractor must conduct a complete inspection of the building or the private portion of a co-ownership unit, in order to recognize the condition of the work. Particular attention must be paid to extra work that has been requested. All elements to be completed or corrected must be noted – for example, a door that has not been properly adjusted, a scratch in the bathtub or shower, a missing light fixture, etc.

If the beneficiary or beneficiaries and the contractor disagree on the list of work to be completed or corrected, they must state this directly on the inspection checklist.

In addition, the beneficiary or beneficiaries may add items to the list of work to be completed or corrected during the three (3) day period following acceptance, on condition they have not moved into the building or into their private portion of the co-ownership unit.

Finally, during this inspection, the beneficiary or beneficiaries and the contractor shall agree on a deadline of no more than six (6) months from the date of the pre-acceptance inspection to perform this completion and corrective work.
